Introduction

Thank you for considering the services of **The Lady with the Lamp**. We are a visiting nurse practitioner practice that brings healthcare services to home-bound geriatric patients in their place of residence, including personal homes, independent-living, assisted-living, skilled-nursing facilities, and personal care homes. We provide meaningful care and coordination with the goal of increasing quality of life and preventing unnecessary hospitalizations.

Our nurse practitioners and staff are well-versed in the chronic conditions facing the geriatric population. We leverage this expertise to manage the comprehensive care needs of our patients through proactive communication with all parties involved, including the patient, their families, and their entire care team; including facility owners, facility staff, home-health and hospice agencies.

Our staff is comprised of individuals who desire autonomy, thrive in an environment in which they become deeply knowledgeable of the patient, their lives, and their support system, embrace the role of educating patients and families of their choices and challenges, see the advantages of being responsible for the overall coordination and execution of the patient's care plan, and are rewarded by being a critical member of our patient's overall well-being.

We take on the role of Primary Care Provider (PCP) for our patients. We can fit in and work with existing specialists while becoming the primary point of contact for the patient's overall care plan. In addition to designing and implementing a plan of care, we work closely with home health and hospice companies to provide comprehensive care throughout all phases of the aging process and are here to help educate our patient and their families on all of their options. We have no business relationships with nor receive any compensation from home health or hospice agencies but are committed to helping you understand your options and identifying the agencies that best fit the needs of our patients. It is important to remember that the patient always has the right to choose their providers, including services such as home health and hospice, and nothing in this document binds the patient to anything other than giving us permission to become your PCP and begin overseeing the patient's care.

To become a patient of The Lady with the Lamp, we must have the patient or their responsible party complete and sign this patient packet, and then fax or email it to our office. Once received, we will contact you to arrange for our initial visit.

Communication Guidelines

To best serve our patients, their families, and the facilities in which they live, we ask that everyone operate under the following communication guidelines.

All calls to our Providers and staff should be made to our main office number, 281.706.9232. This will ensure that all calls are handled effectively and efficiently and also allow our teams to focus on the patients they are seeing. It is our goal that all calls will be handled within 24 hours of receipt.

If you feel the patient is experiencing an emergency situation, please call 911.

Our office hours are from 8:30 to 5:00 Monday through Friday. Calls made to our office outside of these hours will be forwarded to the on-call Provider's voice mail. They will review these calls and handle them accordingly.

Any prescription refill requests can be faxed to 844.899.4223 or called into our main office number. When requesting a prescription refill, always provide the patient's name, DOB, current medication, dosage, and instructions.
